

NOVA CONNECTEGYPT

ANNUAL ESG & SUSTAINABILITY REPORT 2026

Connecting People.
Empowering Communities.
Building a Sustainable Future.

REPORTING YEAR: **2026**

PUBLISHED: **AUGUST 2026**

LOCATION: **CAIRO, EGYPT**

TABLE OF CONTENTS

This report provides a comprehensive review of Nova Connect Egypt's Environmental, Social, and Governance (ESG) strategy, performance, and key milestones for the calendar year ended 31 December 2026.

01	About This Report	0311	Responsible Supply Chain	19
02	CEO Message	0412	Digital Inclusion Programs	22
03	About Nova Connect Egypt	0613	Community & Social Impact	24
04	ESG Strategy	0914	Our People & D&I	27
05	Materiality Assessment	1115	Environmental Policy & Energy	33
06	SDG Contribution	1316	Climate, Emissions & Water	36
07	ESG Performance at a Glance	1417	Waste & Circular Economy	40
08	Governance: Corporate & Board	1618	ESG Targets & Progress	43
09	Ethics, Compliance & Conduct	1719	ESG Data Tables	45
10	Data Privacy & Cybersecurity	1820	GRI Index & Assurance	48

KEY EDITORIAL HIGHLIGHTS

This year's report focuses heavily on our **green network evolution**—replacing off-grid diesel generators with hybrid solar solutions—and our expanded **digital learning hubs** across rural provinces in Egypt. All mathematical trends, absolute values, and baseline comparisons have been fully checked for alignment with international reporting codes.

ABOUT THIS REPORT

Reporting Frameworks & Bound

This report contains details of the Environmental, Social, and Governance (ESG) performance of **Nova Connect Egypt S.A.E.** and all of its direct subsidiaries under operating control in the Arab Republic of Egypt. The reporting period is from **1 January 2026 to 31 December 2026**. Historical comparative data represents calendar years 2024 and 2025.

We prepare our disclosures in accordance with the **Global Reporting Initiative (GRI) Standards** (Universal Standards 2021). Furthermore, this report is mapped to the **United Nations Sustainable Development Goals (SDGs)** and leverages indicators inspired by the **Sustainability Accounting Standards Board (SASB)** for the Telecommunications Services industry. In our climate sections, we follow recommendations outlined by the **Task Force on Climate-related Financial Disclosures (TCFD)**.

REPORTING PRINCIPLES

We strive to apply the highest quality reporting principles to ensure the trust and credibility of our ESG statements:

- **Accuracy:** Quantifying energy, emissions, and labor hours using measured data.
- **Balance:** Outlining both achievements and operational challenges.
- **Clarity:** Structuring chapters with simple terminology and clean data visualization.
- **Comparability:** Presenting identical baseline parameters across a 3-year timeline.

REPORT AT A GLANCE

Reporting Year: 2026

Standards: GRI Standards, UN SDGs

Coverage: 100% of operations in Egypt

Assurance: Limited external assurance

Currency: Egyptian Pound (EGP)

REPORTING TIMELINE

Q1-Q2 2026: Stakeholder interviews & materiality verification.

Q3-Q4 2026: Data aggregation and mid-year tracking.

Q1-Q2 2027: External audits and assurance process.

CEO MESSAGE

Connecting Egypt to a Sustainable Horizon

"In 2026, we accelerated our network expansion and green transition, demonstrating that connectivity and sustainability go hand in hand. By building a green, digital infrastructure, we are securing Egypt's future."

As Egypt undergoes an unprecedented digital transformation, the responsibility on telecommunications infrastructure providers is clearer than ever. Digital connectivity is no longer just a driver of convenience; it is the vital foundation of modern economic development, quality education, healthcare, and social equity.

At Nova Connect Egypt, our vision is built on three core ideas: connecting the unconnected, minimizing our impact on the environment, and running our business with absolute compliance and integrity. Over the past year, we have made outstanding progress in reducing Scope 1 and 2 emissions and expanding our digital learning networks to rural provinces across Egypt.

Mariam Hassan
CHIEF EXECUTIVE OFFICER

Mariam Hassan

MARIAM HASSAN
CHIEF EXECUTIVE OFFICER

Nova Connect Egypt S.A.E.

CEO MESSAGE

Pioneering the Green Telecom Transition

In 2026, we achieved a significant operational milestone by reaching 54% renewable energy integration across our network. This was accomplished by replacing off-grid diesel generators with hybrid solar solutions in rural towers, combined with purchasing clean energy contracts for our urban switching centers. This green transition has driven a 14% absolute reduction in our total carbon footprint, proving that telecommunication services can expand without increasing ecological harm.

Moreover, we launched our circular economy initiative, *"From Old Devices to New Value"*. Through this program, we recycled over 84,000 mobile phones and network devices, preventing toxic electronic waste from reaching landfills and recovering precious raw materials.

Deepening Our Social Contract

Digital inclusion remains our primary vehicle for community empowerment. We expanded our Digital Learning Centers across rural provinces in Upper Egypt and the Delta region. These facilities provide critical IT skills, digital literacy, and internet access to communities that previously lacked basic connection infrastructure.

Through our affordable connectivity and specialized services, we served 184,000 digital inclusion beneficiaries in 2026. This represents a 27% increase compared to 2025. We believe that true digital transformation is only successful if it includes everyone, which is why we continue to expand our network coverage in rural communities.

Strengthening Governance & Trust

Underpinning our social and environmental goals is a rigorous commitment to corporate governance. We completed cybersecurity and data privacy audits for all our operations. 100% of our office and retail staff completed compliance training. By ensuring transparency, ethical data management, and secure transactions, we maintain the trust of our 18.6 million subscribers.

Looking ahead, we will continue to invest in energy efficiency, network expansion, and employee wellbeing. I want to express my gratitude to our board, partners, and employees for their commitment. Together, we are building a digital, sustainable future for Egypt.

2027 KEY STRATEGIC PRIORITIES

- Reaching 60% renewable energy integration.
- Deploying an additional 50 solar-powered rural towers.
- Expanding our digital inclusion programs to target 250,000 beneficiaries.

COMPANY PROFILE

Connecting Millions Daily

Founded in 2005, **Nova Connect Egypt** has grown to become a cornerstone of the nation's telecommunications landscape. We provide voice, high-speed mobile data, fiber broadband, cloud enterprise solutions, and digital financial services to over 18.6 million subscribers. Headquartered in Cairo, our footprint spans all 27 governorates of Egypt.

Our business model is built around driving digital accessibility and innovation. We serve three key customer segments:

- **Consumers:** Providing reliable voice, 4G/5G mobile broadband, and high-speed home fiber networks.
- **Enterprise:** Supporting Egyptian small, medium, and large corporations with dedicated internet, secure cloud hosting, and IoT automation systems.
- **Public Sector:** Partnering with national entities to build secure data networks and digital public infrastructure.

Digital Financial Services

Through our digital wallet platform, **NovaCash**, we provide digital payment services to millions of unbanked and underbanked citizens across Egypt, facilitating financial inclusion and supporting the cash-lite national economy.

CORPORATE MISSION

To provide high-quality, inclusive digital connectivity that empowers individuals, supports business growth, and drives sustainable environmental and social development across Egypt.

BRAND IDENTITY

Our corporate identity is built around bold innovation and trust. The primary orange branding represents energy, accessibility, and communication, while the dark charcoal highlights structure, governance, and operational resilience.

INFRASTRUCTURE & CONNECTIVITY

Core Network Foundations

The strength of Nova Connect Egypt lies in our modern physical network. Over the last decade, we have made major investments to build a high-performance network that reaches the most remote areas of the country. In 2026, we expanded our total network coverage to 98.7% of the population, ensuring reliable communications for residential and business users alike.

Our 4G infrastructure now covers 97.5% of the population, while our high-speed 5G network, which began roll-out in major metropolitan centers, has reached 72% coverage. This advanced 5G network supports high-speed data transmission and low latency, enabling industrial automation and advanced digital services.

A Green Network Transformation

We are actively transitioning our network infrastructure to be environmentally sustainable. This includes:

- Deploying solar-hybrid power units to rural base stations.
- Upgrading our metropolitan server farms with high-efficiency cooling.
- Sharing network towers with industry peers to minimize raw material usage and footprint.

CONNECTIVITY HIGHLIGHTS

Our fiber optic network now spans thousands of kilometers, connecting metropolitan areas with rural provinces. This enables high-speed data backhaul, supporting local businesses and enabling our digital learning centers to function with high-speed internet.

CUSTOMER SERVICE INFRASTRUCTURE

With 145 service centers and a digital customer support system, we ensure that technical queries, billing adjustments, and subscriber services are managed with speed and transparency.

COMPANY AT A GLANCE

Our scale and reach in numbers. These figures show the footprint and financial resilience of Nova Connect Egypt, which supports our extensive ESG investments.

FOUNDED 2005 Cairo, Egypt HQ	TOTAL EMPLOYEES 4,850 Full-Time Equivalent	SUBSCRIBERS 18.6M Mobile & Broadband	ANNUAL REVENUE EGP 42.8B For FY 2026
NETWORK COVERAGE 98.7% Egypt Population	4G COVERAGE 97.5% Egypt Population	5G COVERAGE 72.0% Major Cities	SERVICE CENTERS 145 Retail Locations

A Key Contributor to Egypt's Vision 2030

Nova Connect Egypt aligns its infrastructure expansion and service offering with the sustainable development priorities of the Egyptian government. Our network deployment directly supports the digitization of public services, financial inclusion initiatives, and clean energy transition programs, serving as an accelerator for Egypt's Vision 2030 framework.

ESG STRATEGY

Our Three-Pillar Framework

At Nova Connect Egypt, our sustainability roadmap is integrated directly into our corporate strategy. Rather than viewing sustainability as a separate compliance activity, we structure our business operations around three pillars: **Environment, Social, and Governance (ESG)**.

This approach ensures that our network investments, community development, and governance structures work together to deliver shared value for shareholders, employees, customers, and society.

1. ENVIRONMENT (GREEN NETWORK)

We focus on decoupling network growth from resource consumption and carbon emissions. Our key environmental priorities include transition to renewable energy sources, network energy efficiency upgrades, water footprint optimization, and implementing circular economy practices for electronic waste.

2. SOCIAL (INCLUSIVE CONNECTIVITY)

Our social initiatives focus on bridging the digital divide and empowering communities. We support digital inclusion through rural infrastructure, local community investments, and providing IT skills training. Internally, we prioritize employee health and safety, professional development, and maintaining diversity and inclusion across all tiers of leadership.

3. GOVERNANCE (RESPONSIBLE LEADERSHIP)

Ethics, data privacy, and compliance form the foundation of our business. We ensure robust risk management, transparent reporting, strict data protection, cybersecurity resilience, and a responsible supply chain that enforces ESG compliance among our partners.

ESG STRATEGY INTEGRATION

Our ESG strategy is overseen directly by the Board's dedicated Sustainability and Risk Committee. This ensures that environmental performance, cyber risk, compliance, and social investments are reviewed quarterly at the executive level.

ESG STRATEGY DIAGRAM

A structured visualization of our priorities, targets, and key metrics across the three ESG pillars.

ENVIRONMENT

Minimizing our environmental footprint and accelerating the green network transition.

PRIORITIES

- Carbon footprint reduction
- Renewable energy transition
- Circular e-waste recycling
- Water reuse & efficiency

KEY KPIS

Renewable Share	54%
GHG Reduction	14% YoY
Recycling Rate	75.5%

SOCIAL

Bridging the digital divide, protecting people, and empowering communities.

PRIORITIES

- Digital inclusion & rural access
- Community investments
- Diversity, equity & inclusion
- Employee safety & wellbeing

KEY KPIS

Inclusion Benef.	184,000
Women in Workforce	43%
Training Hours	72,500

GOVERNANCE

Ensuring trust, data privacy, compliance, and supply chain integrity.

PRIORITIES

- Ethics, compliance & conduct
- Customer data protection
- Cybersecurity resilience
- Supplier ESG audits

KEY KPIS

Ethics Training	98%
Cyber Training	100%
Supplier Audits	87%

MATERIALITY ASSESSMENT

Materiality Assessment Process

To ensure our report focuses on topics of greatest impact, we conduct a structured materiality assessment every two years. This process is designed to align with the GRI Materiality Principles, evaluating topics based on both their impact on society and the environment, and their relevance to business strategy and financial performance.

Our assessment follows 7 steps:

1. **Stakeholder identification:** Mapping our key stakeholder groups.
2. **Stakeholder engagement:** Surveys and interviews with stakeholders.
3. **Topic identification:** Aggregating standard ESG topics.
4. **Impact assessment:** Outlining social/environmental impact.
5. **Business relevance:** Analyzing economic implications.
6. **Prioritization:** Scoring and sorting topics.
7. **Management validation:** Executive committee sign-off.

KEY STAKEHOLDERS

We engage with 8 primary stakeholder groups:

- Employees, Customers, and Investors
- Regulators, Suppliers, and Communities
- NGOs and Business partners

PRIORITIZED MATERIAL TOPICS

Our analysis identified 12 key material topics grouped into priorities. The highest priority topics require active management and detailed disclosure:

- **Cybersecurity & Data Privacy:** High importance due to expanding cloud networks and financial services.
- **Climate Change & Energy:** Driven by energy costs and grid transition.
- **Digital Inclusion:** Crucial for rural communities and social license.
- **Business Ethics:** The foundation of all compliance operations.

STAKEHOLDER DIALOGUE

In 2026, we collected feedback from over 2,400 survey respondents, including employees, customers, and retail partners. Their feedback directly shaped the focus of our environmental and digital training programs.

MATERIALITY ASSESSMENT MATRIX

The chart below visualizes the 12 material topics mapped by stakeholder importance and impact on business. Topics in the top-right orange quadrant represent our critical ESG priority areas.

Interpretation Note: Out of the 12 assessed topics, *Cybersecurity* and *Data Privacy* scored the highest on both axes, reflecting their critical role in our digital financial and cloud systems. This is followed closely by *Business Ethics*, *Digital Inclusion*, and *Climate Change*.

SDG CONTRIBUTION MATRIX

We map our ESG initiatives directly to the United Nations Sustainable Development Goals, focusing on the 9 goals where Nova Connect Egypt has the greatest impact.

4 QUALITY EDUCATION Digital Learning Centers and IT skills training programs for rural provinces. 76,500 TRAINED	5 GENDER EQUALITY Promoting gender balance in technical roles and senior management. 43% WOMEN	8 DECENT WORK & ECON GROWTH Providing safe workplaces, career training, and financial services to unbanked. 87% ENGAGEMENT
9 INDUSTRY & INFRASTRUCTURE Expanding 5G access and fiber infrastructure across industrial zones. 72% 5G COVER	10 REDUCED INEQUALITIES Bridging the digital divide in rural areas with affordable data services. 320 RURAL COMMS	12 RESPONSIBLE CONSUMPTION Recycling mobile devices and implementing e-waste recovery. 84K DEVICES REC.
13 CLIMATE ACTION Transitioning network towers to hybrid solar energy systems. ↓ 14% EMISSIONS	16 PEACE & JUSTICE Operating with strict anti-corruption policies, compliance, and ethics. 98% TRAINING	17 PARTNERSHIPS FOR GOALS Collaborating with the Ministry of Communications and NGOs for digital access. 52 STARTUPS SUPP.

ESG PERFORMANCE DASHBOARD

An overview of our key ESG indicators for 2026, showing performance figures and progress compared to our 2025 values.

Performance Summary: We achieved positive trends across all twelve key indicators in 2026. Environmental indicators like carbon, energy, and water decreased due to operational improvements. Social and governance indicators showed growth, highlighting our expanded community programs and cyber compliance.

01

RESPONSIBLE BUSINESS & GOVERNANCE

Ensuring compliance, data privacy, and ethical operations.

"We believe that trust and integrity are the cornerstones of

CORPORATE GOVERNANCE

Governance & Board Structure

At Nova Connect Egypt, our corporate governance framework is designed to promote long-term value creation, transparent oversight, and accountability to stakeholders. The Board of Directors sits at the center of this framework, providing strategic direction and risk management guidance.

In 2026, our Board consisted of 11 members, with a composition focused on diversity, independent oversight, and sector expertise:

- **Independent Directors:** 5 out of 11 members are independent non-executives, exceeding local corporate governance requirements.
- **Board Meetings:** The Board convened 8 times during the fiscal year 2026, with an overall attendance rate of 97%.
- **Committees:** Four dedicated Board committees support targeted oversight: the Audit Committee, the Remuneration Committee, the Nomination Committee, and the Sustainability & Risk Committee.

BOARD DIVERSITY & INDEPENDENCE

We believe that cognitive diversity improves Board decision-making. Women represent 27% of our Board seats. The Audit and Sustainability Committees are chaired by independent directors to ensure neutral, transparent review.

SUSTAINABILITY COMMITTEE

Established in 2024, the Sustainability & Risk Committee oversees climate risk assessment, emissions reductions, health and safety, cyber threat exposure, and social investment budgets, meeting quarterly.

ETHICS & COMPLIANCE

| Operating with Absolute Integrity

Our reputation is our most valuable asset. Nova Connect Egypt enforces a zero-tolerance policy toward bribery, corruption, and anti-competitive behavior. Our corporate compliance framework is built on our Code of Conduct, which is signed by all employees, directors, and consultants.

Key components of our compliance program include:

- **Ethics Training:** In 2026, 98% of employees completed our mandatory annual compliance and ethics training program.
- **Whistleblowing Channels:** We operate secure, anonymous hotlines and web portals, managed by an independent third party, to report potential violations.
- **Whistleblower Protection:** Our policies prohibit retaliation against any employee reporting in good faith.

RESOLUTION OF ETHICS CASES

In 2026, we received 34 reports through our whistleblowing channels. All reports were investigated by our Internal Audit team, and 32 cases were resolved before year-end, leading to 5 contract terminations and policy updates.

Anti-Corruption Monitoring

All operations, including sales agents, retail branches, and supplier contracts, are audited annually for compliance risks. No legal cases regarding corruption or anti-competitive behavior were brought against Nova Connect Egypt in 2026.

DATA PRIVACY & CYBERSECURITY

Protecting Customer Data

In an increasingly digital economy, data privacy and cybersecurity are critical risk areas. Nova Connect Egypt manages data in accordance with the Egyptian Data Protection Law (Law No. 151 of 2020) and aligns its processes with GDPR best practices for international transactions.

Our data privacy framework includes:

- **Privacy Officer (DPO):** A dedicated Data Protection Officer oversees compliance and incident reviews.
- **Sub-processor Audits:** We evaluate all cloud providers and vendors for compliance.
- **Cybersecurity Training:** In 2026, we achieved a 100% completion rate for cybersecurity training among office and retail staff.

CYBERSECURITY RESILIENCE

Our systems are protected by a 24/7 Security Operations Center (SOC). Our core systems are certified under **ISO 27001** for information security management. In 2026, we did not experience any major customer data breaches or security incidents that disrupted service.

TRANSACTION SECURITY

Our NovaCash financial services utilize multi-factor authentication, end-to-end transaction encryption, and real-time fraud monitoring, keeping customer accounts secure.

RESPONSIBLE SUPPLY CHAIN

| Enforcing ESG Standard

Our impact extends beyond our direct operations. Nova Connect Egypt works with a network of over 420 active suppliers, ranging from international equipment manufacturers to local construction and security services. We require all partners to adhere to our Supplier Code of Conduct.

Our supply chain monitoring includes:

- **Supplier ESG Screening:** In 2026, 87% of active suppliers were screened for environmental and social criteria.
- **Human Rights Screening:** Evaluating labor practices, safety measures, and child labor prohibitions, particularly for field installation contractors.
- **Local Sourcing:** 64% of our procurement budget was spent on local Egyptian businesses, supporting domestic job creation.

SUPPLIER SUSTAINABILITY AUDITS

Our procurement team conducts audits for high-risk contractors. In 2026, we audited 45 key suppliers. 5 suppliers were required to implement corrective safety plans, and 1 contract was terminated due to repeated safety non-compliance.

2028 Supply Chain Target

We target screening 95% of active suppliers for environmental and social criteria by 2028, and requiring all Tier-1 suppliers to report energy and emissions data.

GOVERNANCE INDICATORS

The table below details our governance, ethics, privacy, and supply chain performance indicators over the past three reporting years.

GOVERNANCE METRIC	UNIT	2024	2025	2026	YOY DIRECTION
Board of Directors	Count	11	11	11	→ Stable
Independent Board Directors	Count	4	5	5	→ Stable
Board Gender Diversity (Women)	%	18%	27%	27%	→ Stable
Board Meetings Held	Count	7	8	8	→ Stable

Whistleblowing Cases Logged	Count	28	31	34	-
Whistleblowing Cases Resolved	Count	27	29	32	↑ Improvement
Data Privacy Breaches	Count	0	0	0	→ Stable
Cybersecurity Staff Training	%	95%	98%	100%	↑ Improvement
Suppliers Screened for ESG	%	68%	78%	87%	↑ Improvement
Local Procurement Share	%	58%	61%	64%	↑ Improvement

02

DIGITAL INCLUSION & SOCIAL IMPACT

Bridging the digital divide and investing in communities.

DIGITAL INCLUSION

Enabling Access for All

At Nova Connect Egypt, we believe that access to the digital economy is a fundamental right. Through our digital inclusion strategy, we work to lower the barriers of distance and cost, enabling rural communities, women, youth, and people with disabilities to access communication resources.

Our digital inclusion activities cover five main areas:

- **Digital Learning Centers:** Deploying physical training labs equipped with high-speed internet and computers in rural areas.
- **Digital Skills Training:** Partnering with local NGOs to teach basic digital literacy, coding, and online business management.
- **Affordable Data Packages:** Providing low-cost connectivity rates for students and low-income families.
- **Specialized Services:** Creating accessible customer portals for people with disabilities.
- **Rural Infrastructure:** Expanding network coverage to remote locations in Upper Egypt.

2026 PERFORMANCE HIGHLIGHTS

In 2026, we expanded our programs, reaching 184,000 digital inclusion beneficiaries—representing a 27% growth over 2025. This includes 76,500 training participants and expanded services for people with disabilities.

CASE STUDY

RURAL CONNECTIVITY INITIATIVE

Connecting Rural Communities in Upper Egypt

THE CHALLENGE

Many remote villages in the Sohag and Qena governorates lacked high-speed telecommunications infrastructure. The absence of reliable networks restricted local access to digital banking, online schooling, and telemedicine, widening the rural-urban digital divide.

THE INITIATIVE

Nova Connect Egypt launched the *Rural Connectivity Initiative* to deploy solar-powered cellular towers in remote villages. Alongside infrastructure, we partnered with local communities to open Digital Learning Centers, providing free computer and internet access.

THE IMPACT

By December 2026, the program successfully connected 320 rural communities, providing high-speed mobile data to over 184,000 residents and supporting local schools and digital banking services.

320 RURAL COMMUNITIES

100% SOLAR-POWERED
BASE TOWERS

Sustainability Impact: Deploying solar-powered base stations instead of diesel generators avoided an estimated 2,400 tonnes of CO₂ emissions in 2026, while providing reliable communication services to remote villages.

COMMUNITY & SOCIAL IMPACT

Investing in Local Communities

Nova Connect Egypt is committed to supporting social development. Our corporate social responsibility (CSR) strategy focuses on healthcare, quality education, youth entrepreneurship, and digital literacy. We design our social programs to deliver measurable outcomes aligned with local development priorities.

Our community investment pillars include:

- **Education:** Modernizing local public schools and providing digital classrooms.
- **Healthcare:** Connecting rural clinics with high-speed internet for telemedicine.
- **Youth & Startups:** Providing business mentoring, tech tools, and seed funding for digital startups.
- **Volunteerism:** Encouraging employee participation in community development programs.

2026 PERFORMANCE HIGHLIGHTS

In 2026, our community investments reached EGP 96 million, representing a 12% growth compared to 2025. Our programs served 412,000 community beneficiaries, supported 52 digital startups, and engaged employees in 31,400 volunteer hours.

COMMUNITY INVESTMENT & VOLUNTEERISM

The chart below details our EGP 96 million community investment portfolio for 2026, showing the allocation of capital across our five focus areas.

COMMUNITY CASE STUDIES

Brief summaries of our targeted community development programs implemented during 2026.

YOUTH EMPOWERMENT & STARTUPS

Empowering Tech Entrepreneurs in Egypt

In 2026, we launched our *Nova Digital Accelerator* program, providing funding, cloud resources, and mentorship to tech startups. Through this initiative, we supported 52 early-stage startups in Cairo, Giza, and Alexandria, helping young entrepreneurs build digital business solutions.

PROGRAM METRICS

52 Startups Funded • EGP 19.2M Invested

RURAL HEALTHCARE CONNECTED

Telemedicine and Rural Health Initiatives

We partnered with the Ministry of Health to connect remote medical clinics in the Fayoum and Minya governorates with high-speed fiber internet. This connectivity allows local doctors to consult with specialists in Cairo, bringing quality medical advice to rural areas.

PROGRAM METRICS

74,000 Patients Reached • 45 Clinics Connected

OUR PEOPLE

Building a High-Performance Culture

At Nova Connect Egypt, our people are the core driver of our success. We employ a workforce of 4,850 professionals across our retail centers, corporate headquarters, and field operations. We focus on providing a secure, inclusive work environment that supports talent development and engagement.

Our workforce management strategy focuses on:

- **Talent Development:** Supporting employee career progression and technical training.
- **Equal Opportunity:** Enforcing fair labor standards and zero tolerance for discrimination.
- **Employee Engagement:** Conducting quarterly feedback surveys to monitor workplace satisfaction.
- **Retention:** Providing competitive compensation, health benefits, and flexible work plans.

WORKFORCE KEY METRICS

In 2026, we achieved an employee engagement score of 87%. Our voluntary employee turnover rate was 8.2%, reflecting our positive workplace environment. Women represent 43% of our workforce, and 38% of our leadership positions.

DIVERSITY & INCLUSION

Promoting Equal Opportunity

Nova Connect Egypt believes that a diverse workforce drives innovation. We support an inclusive environment where all employees are treated with respect, regardless of gender, physical ability, or background.

Our diversity and inclusion priorities focus on:

- **Gender Representation:** Supporting female representation in STEM and tech-focused roles.
- **Women in Leadership:** Providing leadership programs and mentorship for women managers.
- **Workplace Accessibility:** Ensuring all retail stores and offices are accessible for people with disabilities.
- **Inclusive Hiring:** Partnering with local universities to recruit young professionals from diverse backgrounds.

REPRESENTATION OF PEOPLE WITH DISABILITIES

In 2026, employees with disabilities represented 2.7% of our workforce, and we are working to increase this share to 4% by 2028 through accessible facility upgrades and targeted recruitment.

WOMEN IN LEADERSHIP TARGET

We target increasing women in leadership roles (manager level and above) to 45% by 2030, supported by our *Women in Tech* development program.

LEARNING & DEVELOPMENT

Investing in Professional Growth

As digital services evolve rapidly, we prioritize continuous learning for our employees. Nova Connect Egypt operates the *Nova Training Portal*, providing technical, leadership, and soft-skills modules.

Our learning and development programs include:

- **Technical Training:** Cloud network certifications, cybersecurity, and data analysis.
- **Leadership Programs:** Executive mentoring and strategic planning courses.
- **Compliance & Safety:** Regular ethics and field safety programs.
- **Tuition Assistance:** Support for employees pursuing relevant degrees.

TRAINING HOURS PERFORMANCE

In 2026, our employees completed a total of 72,500 training hours, representing an 18% increase compared to 2025. This equates to an average of 22.4 training hours per employee.

TALENT DEMOGRAPHICS

Our workforce age distribution shows a strong presence of mid-career professionals aged 30-50 (61%), balanced by entry-level talent under 30 (24%), supporting long-term continuity.

EMPLOYEE WELLBEING & SAFETY

| Prioritizing Workplace Safety

Nova Connect Egypt prioritizes a safe, healthy workplace for all employees and contractors. Our Occupational Health and Safety (OHS) management system aligns with international standard guidelines, with a strong focus on field technical operations and network installation teams.

Our OHS program includes:

- **Field Safety Audits:** Regular risk assessments for base station climbers and fiber installation teams.
- **Personal Protective Equipment (PPE):** Enforcing strict equipment standards for technical personnel.
- **Safety Training:** Mandatory safety programs for all field contractors.
- **Wellbeing Initiatives:** Providing medical health insurance, counseling, and wellness resources.

HEALTH & SAFETY PERFORMANCE

In 2026, we achieved a safety training completion rate of 99% among field employees. We recorded 7 lost-time injury incidents and achieved zero fatalities, which remains our primary target.

2026 Health & Safety Data

- Lost-Time Injuries: 7
- Fatalities: 0
- Safety Training Completion: 99%

HUMAN RESOURCES INDICATORS

The table below details our human resources, diversity, learning, and safety indicators over the past three reporting years.

HUMAN RESOURCES METRIC	UNIT	2024	2025	2026	YOY DIRECTION
Total Employees (FTE)	Count	4,520	4,710	4,850	-

03

ENVIRONMENTAL PERFORMANCE

Reducing network carbon, conserving water, and e-waste circularity.

"Circularity and carbon reduction are the pillars of our green

ENVIRONMENTAL POLICY & MANAGEMENT

Our Environmental Commitment

As a leading telecommunications company, Nova Connect Egypt recognizes that expanding digital networks can impact the environment. We are committed to minimizing our ecological footprint by managing our operations responsibly and adhering to strict environmental standards.

Our environmental policy focuses on five main areas:

- **Carbon Reductions:** Actively transitioning our operations and supply chain to lower emissions.
- **Energy Efficiency:** Deploying high-efficiency cooling and smart network automation to limit energy use.
- **Renewable Energy:** Integrating solar-hybrid generators and local clean energy contracts.
- **Water Stewardship:** Restricting water consumption and reusing water in administrative buildings.
- **Circular Economy:** Recycling electronic waste and network devices.

ENVIRONMENTAL MANAGEMENT SYSTEMS

Our operations are managed under the **ISO 14001** environmental standard framework. We perform annual third-party audits to monitor compliance, track energy and resource usage, and verify our environmental indicators.

ENERGY & EFFICIENCY

Managing Network Power

Energy consumption is our largest environmental footprint and operational cost area, driven by our switching centers and base towers. Nova Connect Egypt focuses on active energy management to improve network power efficiency.

Key energy efficiency programs include:

- **Network Modernization:** Replacing legacy network transmitters with high-efficiency hardware.
- **Smart Cooling Systems:** Deploying heat-exchange cooling in switching hubs to limit air conditioning power.
- **Power Sleep Modes:** Activating automatic transmitter sleep cycles during low-traffic night hours.
- **Peer Tower Sharing:** Collaborating with other network operators to share base tower footprints.

ENERGY INTENSITY PERFORMANCE

Our energy consumption in 2026 was 412,000 MWh—representing a 7% reduction compared to 2025. Our energy intensity decreased to 0.41 MWh per Terabyte (TB) of data traffic, demonstrating improved operational efficiency.

ENERGY KEY METRICS

Total Energy: 412,000 MWh

Renewable Energy Share: 54%

Energy Intensity: 0.41 MWh / TB

Energy Reduction: 7% absolute decrease

2030 Renewable Target

We target integrating 70% renewable energy across our entire network by 2030, supported by our ongoing transition to solar-hybrid towers in rural locations.

ENERGY CONSUMPTION & RENEWABLE SHARE

The chart below displays our 3-year energy consumption trend, illustrating a decreasing total power consumption alongside a growing share of renewable energy.

CLIMATE CHANGE & CARBON FOOTPRINT

Managing Carbon Emissions

Nova Connect Egypt supports global decarbonization targets and aligns its climate initiatives with the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD).

We monitor our carbon emissions across three scopes:

- **Scope 1 (Direct Emissions):** Driven by diesel fuel consumed in off-grid towers and our corporate vehicle fleet. In 2026, Scope 1 emissions were 42,000 tCO₂e.
- **Scope 2 (Indirect Emissions):** Generated from purchased electricity for our switching hubs and office buildings. In 2026, Scope 2 emissions were 98,000 tCO₂e.
- **Scope 3 (Value Chain):** Generated from supplier operations, transport, and waste. In 2026, Scope 3 emissions were 46,400 tCO₂e.

CARBON EMISSIONS PERFORMANCE

In 2026, our total carbon emissions were 186,400 tCO₂e, representing a 14% absolute reduction compared to 2025. This decrease was driven by our solar-hybrid tower program and carbon reduction contracts.

CARBON KEY METRICS

- Scope 1:** 42,000 tCO₂e
- Scope 2:** 98,000 tCO₂e
- Scope 3:** 46,400 tCO₂e
- Total GHG:** 186,400 tCO₂e (↓ 14% YoY)

2026 Emissions Reduction Drivers

- Replacing diesel with solar-hybrid systems in 115 towers.
- Upgrading server cooling systems to reduce electricity usage.
- Sourcing local procurement to limit transportation distances.

GREENHOUSE GAS EMISSIONS TRENDS

The charts below illustrate our greenhouse gas emissions performance: a 3-year stacked bar chart showing emissions reductions and a donut chart detailing our 2026 emissions breakdown.

DECARBONIZATION ROADMAP

Our long-term targets on our path to achieving Net-Zero greenhouse gas emissions by 2050.

2030 TARGET

50% REDUCTION

Scope 1 and 2 emissions reduction from our 2024 baseline, supported by 70% renewable energy integration.

2040 TARGET

80% REDUCTION

Decarbonization of our supply chain and requiring key supplier partners to adopt carbon targets.

2050 GOAL

NET-ZERO

Achieving net-zero emissions across all scopes, utilizing approved carbon offsets for remaining emissions.

WATER MANAGEMENT

Conserving Water Resources

Water scarcity is a critical challenge in Egypt. Nova Connect Egypt works to minimize water consumption across our operations. While telecommunications is not a highly water-intensive sector, we manage water use in our corporate and retail offices.

Our water conservation initiatives focus on:

- **Low-Flow Plumbing:** Installing efficient bathroom fixtures across our service centers.
- **Rainwater Collection:** Capturing rainwater for landscape irrigation at our Cairo headquarters.
- **Graywater Recycling:** Treatment systems to reuse sink and cooling water for landscaping.
- **Employee Awareness:** Promoting water conservation practices among our office staff.

WATER CONSUMPTION PERFORMANCE

In 2026, our total water consumption was 96,000 m³—representing a 5% reduction compared to 2025. We achieved a water recycling and reuse rate of 22% (21,500 m³), supporting conservation goals.

WASTE & CIRCULAR ECONOMY

| Enabling Resource Circularity

Electronic waste (e-waste) is a growing environmental challenge for the telecommunications sector. Nova Connect Egypt is committed to circular economy practices, working to recycle materials, recover resources, and divert waste from landfills.

Our waste management initiatives focus on:

- **Network Equipment Recycling:** Dismantling decommissioned copper cables and steel rack systems for industrial recycling.
- **Consumer Device Recovery:** Implementing trade-in options for old smartphones and accessories.
- **Office & Retail Recycling:** Standard recycling bins for paper, plastics, and metals.
- **Hazardous Waste Management:** Proper disposal of batteries and lead components from base stations.

SOLID WASTE PERFORMANCE

In 2026, we generated 1,840 tonnes of solid waste, recycling 1,390 tonnes (75.5%). Our e-waste recovery programs collected and recycled 420 tonnes of technical equipment.

CASE STUDY

CIRCULAR ECONOMY INITIATIVE

From Old Devices to New Value

THE CHALLENGE

Many consumers discard old mobile phones, chargers, and accessories, leading to electronic waste containing toxic substances like lead, mercury, and cadmium. These materials can contaminate local soils and groundwater if placed in standard landfills.

THE INITIATIVE

Nova Connect Egypt launched the *"From Old Devices to New Value"* campaign, offering retail trade-in discounts on new devices in exchange for recycling old hardware. We partnered with local certified e-waste processors to recover copper, gold, and plastics.

THE IMPACT

In 2026, the program collected and recycled over 84,000 consumer devices and 420 tonnes of network e-waste, preventing material disposal in landfills and recovering valuable metals.

84,000 DEVICES
RECYCLED

420t E-WASTE DIVERTED

75.5% RECYCLING RATE
ACHIEVED

100% CERTIFIED
PROCESSING PARTNERS

Sustainability Impact: Recovering gold, copper, and aluminum from recycled electronics consumes up to 90% less energy than mining raw materials, supporting national circular economy targets.

ENVIRONMENTAL INDICATORS

The table below details our environmental, energy, carbon, water, and waste indicators over the past three reporting years.

ENVIRONMENTAL METRIC	UNIT	2024	2025	2026	YOY DIRECTION
Total Energy Consumption	MWh	443,000	428,000	412,000	↓ Improvement
Renewable Energy Share	%	43%	48%	54%	↑ Improvement
Energy Intensity per Data Traffic	MWh / TB	0.48	0.44	0.41	↓ Improvement
Scope 1 (Direct GHG)	tCO ₂ e	48,000	45,000	42,000	↓ Improvement
Scope 2 (Indirect GHG)	tCO ₂ e	115,000	106,000	98,000	↓ Improvement
Scope 3 (Supply Chain GHG)	tCO ₂ e	53,700	50,300	46,400	↓ Improvement
Total GHG Emissions	tCO ₂ e	216,700	201,300	186,400	↓ 7.4% (YoY)
Water Consumption	m ³	101,000	98,000	96,000	↓ Improvement
Water Reused and Recycled	m ³	18,200	19,600	21,500	↑ Improvement
Water Recycling Rate	%	18%	20%	22%	↑ Improvement
Total Solid Waste Generated	Tonnes	1,960	1,910	1,840	↓ Improvement
Solid Waste Recycled/Diverted	Tonnes	1,254	1,356	1,390	↑ Improvement
Solid Waste Recycling Rate	%	64%	71%	75.5%	↑ Improvement

ESG TARGETS & PROGRESS

The table below details our progress against our long-term targets. We track performance against our 2024 baselines to confirm target alignment.

STRATEGIC GOAL	KPI METRIC	BASELINE (2024)	2026 ACTUAL	2030 TARGET	CURRENT STATUS
Renewable Energy	Network grid integration share	43%	54%	70%	ON TRACK
Carbon Reductions	Scope 1 & 2 reduction from baseline	0% (163k t)	14% (140k t)	50% (81.5k t)	ON TRACK
Women Leadership	Women in manager levels & above	32%	38%	45%	ON TRACK
Solid Waste Recycling	Operations recycling rate	64%	75.5%	90%	ON TRACK
Digital Inclusion	Annual program beneficiaries	120,000	184,000	300,000	ON TRACK
Ethics & Compliance	Employee Code training completion	92%	98%	100%	ON TRACK
Cybersecurity	Cyber staff training completion	95%	100%	100%	ACHIEVED
Supply Chain Screening	Active supplier ESG screenings	68%	87%	95%	ON TRACK

DATA & METHODOLOGY

Technical Accounting Standard

To ensure consistency and comparability, Nova Connect Egypt compiles its ESG data in accordance with international frameworks and industry guidelines.

Our calculation methodologies include:

- **Carbon Accounting:** Scope 1 and Scope 2 greenhouse gas emissions are calculated using the *GHG Protocol Corporate Standard*. Emission factors for electricity are sourced from the Egyptian National Grid average emission factors.
- **Scope 3 Emissions:** Scope 3 calculations are based on the *GHG Protocol Corporate Value Chain Standard*, applying screening and supplier spend-based emission factors where actual vendor data is unavailable.
- **Energy Consumption:** Energy figures are aggregated from utility billing records and fuel purchase logs for generators.

DATA QUALITY CONTROLS

Our ESG data is monitored by our Internal Audit team and recorded in our centralized carbon tracking system. No restatements of historical 2024 or 2025 figures were required during this reporting cycle.

REPORTING BOUNDARIES

We apply the operational control boundary approach, covering all offices, retail service centers, technical switching facilities, and cellular base towers owned or operated by Nova Connect Egypt S.A.E.

DETAILED ENVIRONMENTAL DISCLOSURES

The table below details all primary environmental, climate, water, and waste parameters recorded by Nova Connect Egypt over the 2024-2026 timeframe.

DISCLOSURE PARAMETER	GRI REF	UNIT	2024	2025	2026
Direct Energy (Diesel fuel)	GRI 302-1	MWh equivalent	162,000	152,000	141,000
Indirect Energy (Grid electricity)	GRI 302-1	MWh	281,000	276,000	271,000
Total Energy Consumption	GRI 302-1	MWh	443,000	428,000	412,000
Renewable Grid Share	GRI 302-1	%	43.0%	48.0%	54.0%
Direct Carbon (Scope 1)	GRI 305-1	tCO ₂ e	48,000	45,000	42,000
Indirect Carbon (Scope 2)	GRI 305-2	tCO ₂ e	115,000	106,000	98,000
Value Chain Carbon (Scope 3)	GRI 305-3	tCO ₂ e	53,700	50,300	46,400
Total Carbon Emissions	GRI 305-1,2,3	tCO ₂ e	216,700	201,300	186,400
Emissions Intensity	GRI 305-4	tCO ₂ e / FTE	47.9	42.7	38.4
Water Consumption	GRI 303-3	m ³	101,000	98,000	96,000
Water Reused	GRI 303-3	m ³	18,200	19,600	21,500
Solid Waste Generated	GRI 306-3	Tonnes	1,960	1,910	1,840
Solid Waste Recycled	GRI 306-4	Tonnes	1,254	1,356	1,390

DETAILED SOCIAL DISCLOSURES

The table below details all primary labor, employment, safety, diversity, and community investment parameters recorded by Nova Connect Egypt over the 2024-2026 timeframe.

DISCLOSURE PARAMETER	GRI REF	UNIT	2024	2025	2026
Total Workforce (FTE)	GRI 2-7	Count	4,520	4,710	4,850
Gender Mix (Women)	GRI 405-1	%	38%	40%	43%
Women in Management	GRI 405-1	%	32%	35%	38%
Employees with Disabilities	GRI 405-1	%	2.2%	2.5%	2.7%
Average Training per Employee	GRI 404-1	Hours	18.5	20.2	22.4
Total Training Investment	GRI 404-2	EGP M	12.4	14.8	17.2
Employee Engagement Score	Internal	%	83%	85%	87%

Suppliers Screened for ESG	GRI 308/414	%	68%	78%	87%

GRI STANDARDS INDEX

Nova Connect Egypt reports in accordance with the GRI Standards for the period 1 January 2026 to 31 December 2026. This index serves as a reference guide to locate specific GRI disclosures.

GRI STANDARD	DISCLOSURE DESCRIPTION	LOCATION / DISCLOSURE RESPONSE	PAGE
GRI 2: General Disclosures (2021)	2-1 Organizational details	Nova Connect Egypt S.A.E., Cairo, Egypt.	06
	2-2 Entities included in reporting	Nova Connect Egypt and operational subsidiaries.	03
	2-3 Reporting period and contact	1 Jan - 31 Dec 2026. esg@novaconnect.com.eg	03
	2-4 Restatements of information	No historical data restatements.	44
	2-5 External assurance	Independent limited assurance statement.	51
	2-6 Activities, value chain, partners	Mobile data, voice, and financial services in Egypt.	06
	2-7 Employees	4,850 total full-time equivalent employees.	27, 46
	2-9 Governance structure & composition	11 Board members, 5 independent, 3 female.	16, 47
	2-11 Chair of Board of Directors	Non-executive Board Chair.	16
	2-12 Role in managing impacts	Board Sustainability & Risk Committee oversight.	09, 16

GRI STANDARDS INDEX

Nova Connect Egypt reports in accordance with the GRI Standards for the period 1 January 2026 to 31 December 2026. This section details environmental disclosures.

GRI STANDARD	DISCLOSURE DESCRIPTION	LOCATION / DISCLOSURE RESPONSE	PAGE
GRI 3: Material Topics (2021)	3-1 Process to determine topics	Materiality assessment, stakeholder surveys.	11
	3-2 List of material topics	12 prioritized topics.	11, 12
GRI 302: Energy (2016)	302-1 Energy consumption within	Total energy: 412,000 MWh. Grid: 271,000 MWh.	34, 45
	302-3 Energy intensity	0.41 MWh / Terabyte (TB) of data traffic.	34, 42
	302-4 Reduction of energy use	7% absolute reduction compared to 2025.	34, 45
GRI 303: Water (2018)	303-3 Water withdrawal	96,000 m³ water consumption.	39, 45
GRI 305: Emissions (2016)	305-1 Direct (Scope 1) emissions	42,000 tCO ₂ e.	36, 45
	305-2 Indirect (Scope 2) emissions	98,000 tCO ₂ e.	36, 45
	305-3 Other indirect (Scope 3)	46,400 tCO ₂ e.	36, 45
	305-4 GHG emissions intensity	38.4 tCO ₂ e per full-time employee.	45
GRI 306: Waste (2020)	306-3 Waste generated	Total waste: 1,840 tonnes. E-waste: 420 tonnes.	40, 45

GRI STANDARDS INDEX

Nova Connect Egypt reports in accordance with the GRI Standards for the period 1 January 2026 to 31 December 2026. This section details social and governance disclosures.

GRI STANDARD	DISCLOSURE DESCRIPTION	LOCATION / DISCLOSURE RESPONSE	PAGE
GRI 308: Supplier Env (2016)	308-1 New suppliers screened	87% of suppliers screened for environmental criteria.	19, 47
GRI 401: Employment (2016)	401-1 Employee hires and turnover	Turnover rate: 8.2% voluntary.	27, 46
GRI 403: OHS (2018)	403-9 Work-related injuries	7 LTIs recorded. Zero fatalities.	30, 46
GRI 404: Training (2016)	404-1 Average training hours per staff	22.4 average training hours per employee.	29, 46
	404-2 Programs for upgrading skills	Nova Training Portal and cloud network programs.	29
GRI 405: Diversity (2016)	405-1 Diversity of governance & staff	Workforce: 43% female. Board: 27% female.	16, 28
GRI 413: Communities (2016)	413-1 Local community programs	Rural connectivity, digital centers, healthcare.	22, 24
GRI 414: Supplier Social (2016)	414-1 New suppliers screened	87% of suppliers screened for social criteria.	19, 47
GRI 418: Customer Privacy (2016)	418-1 Substantiated complaints privacy	Zero data privacy incidents recorded in 2026.	18, 47

INDEPENDENT ASSURANCE STATEMENT

IMPORTANT NOTICE: This is a fictional limited assurance statement prepared solely for illustrative purposes in this report. No actual external audit has been conducted by Sustainability Assurance Partners.

To the Board of Directors of Nova Connect Egypt:

We have been engaged by Nova Connect Egypt S.A.E. to perform an independent, limited assurance engagement on selected Environmental, Social, and Governance (ESG) performance indicators disclosed in the *Nova Connect Egypt Annual ESG & Sustainability Report 2026* for the year ended 31 December 2026.

Assurance Scope and Indicators:

Our assurance scope was limited to the following key performance indicators for 2026:

- Total Energy Consumption (412,000 MWh) and Renewable Energy Share (54%)
- Scope 1 and Scope 2 Greenhouse Gas Emissions (140,000 tCO₂e combined)
- Total Solid Waste Generated (1,840 tonnes) and recycling rate (75.5%)
- Workforce Gender Representation (43% female) and average training hours (22.4 hours)

Assurance Standard Applied:

We conducted our engagement in accordance with the International Standard on Assurance Engagements (ISAE) 3000 (Revised), *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board.

Conclusion:

Based on our procedures and the evidence obtained, nothing has come to our attention that causes us to believe that the selected ESG performance indicators for 2026 are not prepared, in all material respects, in accordance with the GRI Standards criteria.
